

We are extremely proud of how and where we source our produce and are passionate about local and British suppliers. Here's some more information on where your food is sourced from.

Our Meat / Butchers

All of our meat is red tractor accredited from various UK suppliers.

Our Smoked Salmon

Severn & Wye Smokery is situated between two great salmon rivers on the edge of the Royal Forest of Dean. Starting with two flagship products, smoked wild salmon and smoked eel, the business has grown to produce a full range of smoked fish products.

Innes Goats Cheese

Highfields Farm is situated on the Thorpe estate in south-east Staffordshire. The farm was converted from dairy cows to goats in 1987. This is when Innes cheese began. Their approach to farming is simple and holistic. They value milking their own goats because it gives them the control they need to produce clean, high quality milk for cheese making. They are a small family business with a great team who are at the core of the farm.

MCS Fish

All of our fish is purchased using the MCS (Marine Conservation Society) fish rating guide, which is constantly updated, ensuring every piece of our fish is from a sustainable source. We have banned all 'Five' rated fish which is the most unsustainable and are currently working with our fish monger to rule out 'Four' rated fish without affecting the range we can offer.

Cannon & Cannon

Cannon & Cannon is a retailer and distributor of the very best British cured meat and charcuterie. Since 2010, they have been at the forefront of the British charcuterie revolution, linking with an ever expanding number of quality artisan producers from England, Scotland and Wales, and selling their amazing produce on their market stalls, online shop and to the restaurant and delicatessen trade.

Clawson Stilton

The Long Clawson Dairy is a traditional British cheese producer, based in the small village of Long Clawson right here in the county of Leicestershire.

Charnwood Brewery

The Reed family founded Charnwood Brewery in Loughborough, Leicestershire in 2014. They are deeply passionate about their brewery and produce first class products.

Laverstoke Park Mozzarella

Laverstoke Park produced the first serious buffalo mozzarella to be made in the UK. Nothing is added to lengthen the shelf life – it is simply made with buffalo milk fresh from the dairy.
